CONTENTS

4 FLUID THOUGHTS

5 UPFRONT

9 NEW WRC REPORTS

10 IRRIGATED AGRICULTURE
Come rain or come shine? Study contributes to more accurate forecasting

13 WATER AND ENERGY
Of Watts and drops – New compendium switches on the lights for SA energy

16 GROUNDWATER
Thermal springs generate heated interest

20 IRRIGATED AGRICULTURE
Irrigation water metering – It's plain good sense

22 WATER SUPPLY
Rainwater harvesting from tanks – Useful yes, but can you drink it?

26 BIODIVERSITY CONSERVATION
The Cape Critical Rivers Project – conserving rivers, saving species

30 INDUSTRIAL WATER
Olive wastewater: Turning salty into sweet

34 WATER PERSONALITY
A role model in water services regulation

38 WATER LEGISLATION
Viewpoint – Why has the South African National Water Act been so difficult to implement?

42 SKILLS DEVELOPMENT
Hands-on learning at Rhodes biology internship programme

44 WATER EDUCATION
(RISE)ing up for water education in Africa

46 LAST WORD
Teaming up for Mandela to clean local wetland

THE WATER WHEEL is a two-monthly magazine on water and water research published by the South African Water Research Commission (WRC), a statutory organisation established in 1971 by Act of Parliament. Subscription is free. Material in this publication does not necessarily reflect the considered opinions of the members of the WRC, and may be copied with acknowledgement of source.
