PART D

TERMS OF REFERENCE / SCOPE OF WORK / SPECIFICATION (to be attached or included under part D)

1. Purpose

To carry out research and source information relevant to water user needs, addressing drought and update the drought portal for a period of three (3) years

2. Scope of work

In 2015, when South Africa was experiencing severe water shortages, the WRC initiated a drought portal www.droughtsa.org to assist water sector practitioners and the public to get information on a continuous basis relating to the drought. Partners in Development (PID) was contracted in November

2015 to establish the web portal on behalf of the WRC. Our appointment included a budget for hosting the site for twelve (12) months. However, as we know too well the drought persists in several parts of South Africa and therefore the site is still of relevance and value to the country. In March 2018, Cooperative Governance and Traditional Affairs Minister Zweli Mkhize declared the prevailing water crisis affecting multiple provinces a national state of disaster in terms of Section 27 of the Disaster Management Act. This forces the WRC to continue with keeping the portal up and running. The WRC Portal operates independently outside of the WRC IT infrastructure and has given South Africa access to updates on Rainfall Data, dam levels, water saving tips and drought news pages. The portal has links to useful resources, recent news, frequently asked questions, tips for saving water, government officials to access drought-related issues.

Kindly indicate your compliance with the below scope of work

- Provide external hosting of the website (with no link to WRC IT Infrastructure) with full functionality.
- The appointed vendor will update all the drought portal pages make changes and additions on the portal pages: Home page, Rainfall data, Soil moisture, FAQ, Dam levels, and all the related links.
- Ensure full functionality of the website modules and relevant tools.

- Keep the website running and well updated with full access on a daily basis.
- Provide content updates and keep users posted on drought trends and urgent information emerging from different parts of South Africa.
