

TABLE OF CONTENTS

1.	INTRODUCTION	1
2.	DETAILS OF THE PARTICIPANT WATER USER ASSOCIATIONS AND IRRIGATION BOARDS	5
2.1.	Study Area Background	5
2.1.1.	<i>The Loskop Irrigation Board</i>	<i>7</i>
2.1.2.	<i>Irrigation Boards in the Mhlathuze Catchment (Nkwaleni, Mfuli & Heatonville)</i>	<i>7</i>
2.1.3.	<i>The Vaalharts Water User Association</i>	<i>8</i>
2.1.4.	<i>The Oranje-Riet Water User Association</i>	<i>8</i>
2.1.5.	<i>The Lower Sundays River Water User Association</i>	<i>9</i>
2.1.6.	<i>The Gamtoos Irrigation Board</i>	<i>9</i>
2.1.7.	<i>The Lower Olifants Water User Association.....</i>	<i>10</i>
2.2.	The user needs of the participant Water User Associations and Irrigation Boards.....	10
3.	THE GIS COMPONENT OF THE PROJECT.....	12
3.1.	Background.....	12
3.2.	GIS Information for the Project Participants	14
3.2.1.	<i>Vaalharts Water User Association.....</i>	<i>14</i>
3.2.2.	<i>Lower Sundays River Water User Association.....</i>	<i>17</i>
3.2.3.	<i>Gamtoos Irrigation Board</i>	<i>21</i>
3.2.4.	<i>Oranje Riet Water User Association.....</i>	<i>22</i>
3.2.5.	<i>Mhlathuze Catchment.....</i>	<i>22</i>
3.2.6.	<i>Loskop Irrigation Board</i>	<i>23</i>
3.2.7.	<i>Lower Olifants River Water User Association</i>	<i>24</i>
3.3.	Conclusions	25
4.	ACRU AND MIKE BASIN TECHNOLOGY TRANSFER (AAMG).....	26
4.1.	Background.....	26
4.1.1.	<i>Review of ACRU.....</i>	<i>26</i>
4.2.	MIKE BASIN	28
4.2.1.	<i>Background.....</i>	<i>28</i>
4.2.2.	<i>Review of MIKE BASIN</i>	<i>28</i>
4.3.	The AAMG	29
4.3.1.	<i>Background.....</i>	<i>29</i>
4.3.2.	<i>Potential applications.....</i>	<i>30</i>
4.3.3.	<i>Further developments.....</i>	<i>30</i>
4.4.	Conclusion	31
4.5.	Catchment Applications	31
4.5.1.	<i>Mhlathuze Catchment.....</i>	<i>31</i>
4.5.2.	<i>Catchment Information</i>	<i>32</i>
4.5.3.	<i>Initial Model Configuration</i>	<i>37</i>
4.5.4.	<i>Simulation Results and Verifications</i>	<i>41</i>
4.5.5.	<i>Discussion of Mhlathuze Results.....</i>	<i>47</i>
4.5.6.	<i>Upper Olifants Water Management Area - The Area Upstream and Including the Loskop WUA (Secondary Catchments B1, B2 and B3)</i>	<i>48</i>
4.5.7.	<i>Catchment information</i>	<i>48</i>
4.5.8.	<i>Initial Model Configuration</i>	<i>52</i>
4.5.9.	<i>Simulation Results.....</i>	<i>54</i>
4.5.10.	<i>Example of Adding a Water User</i>	<i>55</i>
4.5.11.	<i>Discussion of Upper Olifants Water Management Area Results.....</i>	<i>56</i>

4.6.	Discussion.....	56
4.7.	Conclusions and Potential Applications.....	57
4.8.	References.....	57
5.	WAS TECHNOLOGY TRANSFER.....	59
5.1.	Background.....	59
5.2.	WAS Water Release Calculation Procedure.....	60
5.2.1.	<i>Calculation of lag times</i>	61
5.2.2.	<i>Calculation seepage losses</i>	62
5.2.3.	<i>Calculation of evaporation losses</i>	62
5.2.4.	<i>Calculation of transpiration losses</i>	62
5.3.	Calculation settings.....	62
5.4.	Developments undertaken in order to better meet user needs.....	64
5.4.1.	<i>6-Hourly Distribution Sheet</i>	64
5.4.2.	<i>12-Hourly distribution sheet</i>	65
5.4.3.	<i>Water order form for LSRWUA</i>	67
5.5.	Lower Sundays River WUA implementation and TT.....	68
5.6.	Lower Olifants River WUA implementation and TT.....	69
5.7.	Loskop Irrigation Board implementation and TT.....	69
5.8.	Vaalharts WUA implementation.....	73
5.9.	WAS exit strategy.....	78
6.	SAPWAT TECHNOLOGY TRANSFER.....	79
6.1.	Introduction.....	79
6.2.	Technology Transfer of Sapwat.....	79
6.3.	The Cropping Patterns and Water Use of the WUAs / IBs.....	80
6.3.1.	<i>Loskop</i>	80
6.3.2.	<i>Orange-Riet</i>	81
6.3.3.	<i>Gamtoos</i>	82
6.3.4.	<i>Lower Sundays River</i>	84
6.3.5.	<i>Lower Olifants River</i>	85
6.3.6.	<i>Comparing the Crop Water needs between Water User Associations/Irrigation Boards</i>	86
6.4.	Irrigation needs of sugarcane for the Mhlathuze Catchment.....	88
6.5.	Further Development: SAPWAT3.....	89
6.6.	Conclusions.....	91
7.	THE TECHNOLOGY TRANSFER OF SWB.....	92
7.1.	Background.....	92
7.2.	SWB improvements.....	93
7.2.1.	<i>Change of database</i>	93
7.2.2.	<i>Development of a single simulation setup input screen</i>	93
7.2.3.	<i>Default soils</i>	94
7.2.4.	<i>Weather database improvements</i>	95
7.2.5.	<i>SWB Planning for scenario modelling</i>	95
7.3.	Addressing specific WUA needs.....	96
7.3.1.	<i>Vaalharts Water User Association</i>	97
7.3.2.	<i>Gamtoos Water User Association</i>	97
7.3.3.	<i>Loskop Irrigation Board</i>	97
7.3.4.	<i>Lower Sundays River Water User Association</i>	99
7.4.	Conclusions.....	99
7.5.	References.....	100

8.	THE TECHNOLOGY TRANSFER OF RISKMAN	101
8.1.	Background.....	101
8.2.	RISKMAN improvements.....	102
	8.2.1. <i>Procedural changes</i>	102
	8.2.2. <i>Linking RISKMAN with SWB</i>	103
8.3.	Technology transfer actions.....	104
	8.3.1. <i>Vaalharts WUA</i>	104
	8.3.2. <i>Gamtoos Water User Association</i>	104
	8.3.3. <i>Loskop Irrigation Board</i>	104
	8.3.4. <i>Lower Sundays River Water User Association</i>	104
8.4.	Conclusions	105
8.5.	References.....	105
9.	THE PROJECT EXIT STRATEGY	106
10.	DISCUSSION AND CONCLUSIONS	109
11.	RECOMMENDATIONS.....	111
12.	APPENDICES	112
