

TABLE OF CONTENTS

1.	INTRODUCTION.....	1
1.1	Project Background	1
1.2	Study Approach.....	2
2.	ORIGINS OF MITIGATION BANKING.....	3
3.	DEFINING MITIGATION BANKING.....	5
3.1	Overview of the Concept.....	5
3.2	Types of Compensation.....	6
3.2.1	Establishment	6
3.2.2	Restoration.....	6
3.2.3	Enhancement.....	6
3.2.4	Protection/Preservation.....	6
3.3	Types of Wetland Mitigation Banks.....	7
3.3.1	Single-client banks.....	7
3.3.2	Joint-project banks.....	7
3.3.3	Public-commercial (general use) banks.....	7
3.3.4	Private-commercial (entrepreneurial) banks.....	7
3.4	Operational Models.....	7
3.4.1	Debit banks.....	7
3.4.2	Zero-balance banks.....	7
3.4.3	Accounting systems.....	8
4.	IMPLEMENTING MITIGATION BANKS – AN OVERVIEW OF POLICY REQUIREMENTS AND THE PROCESS.....	8
4.1	Bank Planning.....	8
4.1.1	Bank Initiation	8
4.1.2	Prospectus	9
4.1.3	Development of the Banking Instrument.....	9
4.1.4	Goal Setting and Site selection.....	10
4.1.5	Establishment of Operational Objectives.....	10
4.2	Success Criteria and Monitoring.....	11
4.2.1	Overview and Purpose.....	11
4.2.2	Success Criteria.....	11
4.2.3	Monitoring	12
4.3	Determination of Credits and Debits	12
4.3.1	Credit production techniques.....	12
4.3.2	Designing for Maintenance	12
4.3.3	Baseline documentation	12
4.3.4	Evaluation of Credits and Debits	13
4.3.5	Determination of Compensation Ratios.....	14
4.3.6	Credit Certification and Timing of Credit Withdrawal.....	15
4.4	Accounting Procedures and Formats.....	16
4.5	Financial and Legal Assurances.....	16
4.5.1	Financial Assurances.....	16
4.5.2	Long Term Management and Protection.....	17
4.5.3	Types of Financial Surety	17
4.5.4	Selection of Financial Assurance.....	20
4.5.5	Amount of Financial Assurance.....	20
4.5.6	Release of Financial Assurance.....	20
5.	CONSIDERATION OF OTHER COMPENSATORY MECHANISMS.....	23
5.1	Project Specific Mitigation	23
5.2	In-Lieu Fee Mitigation.....	23
5.3	The Credit Resale Program.....	23
5.4	A Comparison of Mitigation Mechanisms for Wetlands.....	24

5.4.1	Mitigation Banking v In-Lieu Fee Mitigation	24
5.4.2	Mitigation Banking v Project Specific Off-site Mitigation	24
6.	STATUS AND TRENDS IN MITIGATION BANKING IN THE USA	26
7.	COMPENSATORY MITIGATION FOR WETLANDS IN SOUTH AFRICA	28
7.1	Spring Grove Dam in the Upper Mooi-River Catchment	28
7.2	Coal Mining in the Upper Olifants Catchment	28
7.3	Road Construction in Durban	29
7.4	Braamhoek Pump Storage Scheme	29
7.5	Summary of South Africa Situation	30
8.	COMPENSATORY MITIGATION FOR WETLANDS IN OTHER COUNTRIES	31
8.1	Canada	32
8.2	Australia	33
8.3	Uganda	34
9.	STRENGTHS AND WEAKNESSES OF THE CONCEPT	35
9.1	Technical Issues	35
9.1.1	Wetland Definition and Guidelines for Delineation	35
9.1.2	In-Kind vs Out Of-Kind & On-Site vs Off-Site	36
9.1.3	Size of Mitigation Banks	37
9.1.4	Geographic Service Area	38
9.1.5	Transfer of Ecosystem Goods and Services between Locations	40
9.1.6	Types of Compensatory Mitigation	41
9.1.7	Methods for Determining Credits and Debits	42
9.1.8	Replacement Ratios	46
9.1.9	Dealing with the Risks of Failure	48
9.2	Legal and Institutional Issues	49
9.2.1	Appropriate Policy and Legislation	49
9.2.2	Regulatory and other Responsibilities	53
9.2.3	Accessing and Securing Mitigation Sites	55
9.2.3.1	<i>Application of measures provided for under CARA</i>	58
9.2.3.2	<i>Protected Areas Status</i>	59
9.2.3.3	<i>Cooperative (biodiversity) Agreements</i>	62
9.2.3.4	<i>Conservation Areas</i>	63
9.2.3.5	<i>Contract Law</i>	63
9.2.3.6	<i>Financial Incentives</i>	64
9.2.3.7	<i>Conclusions</i>	65
9.2.4	Timing of Credit Withdrawal and Bank Failure	67
9.2.5	Capacity and Enforcement	68
9.3	Summary of Key Issues and Options for Addressing these in South Africa	70
10.	PROPOSED MITIGATION BANKING MODEL FOR SOUTH AFRICA	74
10.1	Overview of Banking Model	74
10.2	Bank Planning	76
10.3	Bank Implementation	83
10.4	Bank Operation	84
10.5	Motivation for the Structure of the Proposed Model	88
10.5.1	Avoiding the Influence of Financial gain on the Effectiveness & Purpose of Mitigation Measures	89
10.5.2	Reducing Pressure on the Decision Making Process (Avoid, Minimise, Mitigate process)	89
10.5.3	Consistency in Planning, Design and Implementation	89
10.5.4	Reducing Administrative Burden	89
10.5.5	Improved Decision Making	90
10.5.6	Improved Co-operative Governance	90
10.5.7	Reducing Risks of Failure	91
10.5.8	Summary of Benefits for Role Players	92

10.6	Conclusion.....	94
11.	SELECTION OF DEMONSTRATION SITES AND PROJECTS TO PILOT MITIGATION A MITIGATION BANK.....	94
11.1	Identification of Demonstration Sites.....	94
11.2	Candidate Demonstration Sites.....	95
11.2.1	Upper Olifants River Catchment.....	95
11.2.2	Upper Mooi River Catchment.....	102
11.2.3	Prioritisation of Demonstration Sites.....	105
11.2.3.1	<i>Suitability of Different Sectors to a Banking System</i>	105
11.2.3.2	<i>Prioritisation of Demonstration Sites</i>	106
11.3	Identification of Pilot Projects.....	107
12.	FRAMEWORK FOR PILOTING A MITIGATION BANK IN THE UORC.....	108
12.1	Proposed Approach to the Pilot Project.....	109
12.2	Implementing the Banking Model.....	110
12.2.1	Bank Planning.....	111
12.2.2	Bank Implementation.....	115
12.2.3	Bank Operation.....	115
12.3	Institutional Arrangements and Resources.....	116
12.3.1	Role players and Responsibilities.....	116
12.3.2	Willingness of Roleplayers to Participate.....	117
12.3.3	Institutional Structure.....	118
12.4	Projected Budgets.....	120
12.5	Pilot Project Schedule.....	121
12.6	Indicators for Measuring Pilot Success.....	122
13.	CONCLUSIONS AND WAY FORWARD.....	124
