

## Table of Contents

Definitions	v
Acronyms	vi
Preface	vii
<b>1. Introduction</b>	<b>1</b>
<b>2. The South African Government Context</b>	<b>3</b>
2.1 South African Government Responses to Global Climate Change	3
2.2 Government Strategies for Addressing Climate Change	4
2.2.1 National Climate Change Response Strategy (NCCRS)	4
2.2.2 Other DEAT Strategic Initiatives	8
2.2.3 Department of Science and Technology (DST) Initiatives	8
2.2.3.1 SA's Climate Change Technology Needs Assessment Report	8
2.2.3.2 A Climate Change R&D Strategy for SA	10
2.2.4 Strategic Initiatives of Other Government Departments (Minerals and Energy; Agriculture; Water Affairs and Forestry)	14
2.3 South African Legal Framework for Responding to Climate Change	15
<b>3. The South African R&amp;D Context</b>	<b>18</b>
3.1 Climate Variability and Change: Water Sector-supported R&D	18
3.1.1 Past WRC-Supported Research	18
3.1.2 Current WRC-Supported Research	20
3.2 Recently Completed and Ongoing Research across Sectors	20
3.3 Newly-initiated or Anticipated Research of Water-sector Relevance	22
3.3.1 Newly Initiated Climate-change Related Research	22
3.3.2 Climate-Change Related Research under Consideration	23
<b>4. A Framework for Identifying, Analysing and Communicating Climate Change-related R&amp;D Needs and Actions Involving the Water Sector</b>	<b>25</b>
4.1 R&D Needs Related to Impacts of Climate Change	25
4.1.1 Refinement and Communication of Climate-change Scenarios, Projections, Information and Data	25
4.1.2 Identification and Quantification of Impacts	26
4.1.2.1 Sectoral and Inter-sectoral Impacts	26
4.1.2.2 Cross-sectoral Impacts (i.e. within Regions, Communities)	28
4.2 R&D Needs Concerned with Adaptation to Climate Change	29
4.2.1 Enhancing Adaptive Capacity	29
4.2.2 Delivering Adaptation Actions	31
4.2.2.1 Adaptation of water-resource and water-use planning/management	31
4.2.2.2 Support for cross-sectoral action at regional/catchment/community level	32
4.3 R&D Needs Concerned with Mitigation of Climate Change	32

<b>5. Towards a Climate-change R&amp;D Portfolio for the Water Sector – Recommendations of the Stakeholder Workshop</b>	<b>34</b>
5.1 Criteria for Prioritisation of Suggested Research Topics	34
5.2 Workshop Process for Identifying Potential Research Projects of High Priority	34
5.3 Results of Prioritisation Exercise	35
<b>6. General Recommendations</b>	<b>44</b>
