

TABLE OF CONTENTS

PURPOSE OF THE HANDBOOK	1
WHO SHOULD USE THE HANDBOOK	2
 PART A: BACKGROUND	
1. Introduction to water quality and treatment	3
2. Drinking water quality	25
3. Introduction to Water Chemistry	38
4. Water treatment calculations	58
 PART B: TREATMENT PROCESSES	
1. Coagulation-flocculation	70
2. Sedimentation and flotation	87
3. Sand filtration	98
4. Disinfection	117
5. Chemical stabilisation	145
6. Fluoridation	158
7. Residuals handling and treatment	164
8. Advanced processes	172
 PART C: MANAGEMENT AND CONTROL	
1. General management concepts	193
2. Treatment plant control	200
3. Maintenance and trouble shooting	219
4. Safety	227
 PART D: APPENDICES AND REFERENCES	
References	232
