

WATER SA

Volume 29 • Number 2 • April 2003

A seeded ambient temperature ferrite process for treatment of AMD waters: Magnetite formation in the presence and absence of calcium ions under steady state operation BE Morgan, O Lahav, GR Hearne and RE Loewenthal	117
A proposed chemical mechanism for biological phosphate removal in activated sludge treatment of wastewater DC van der Post and CF Schutte	125
Treatment of a textile dye in the anaerobic baffled reactor Joanne Bell and Chris A Buckley	129
Household chemicals and personal care products as sources for xenobiotic organic compounds in grey wastewater E Eriksson, K Auffarth, A-M Eilersen, M Henze and A Ledin	135
Removal of cadmium(II) from aqueous solutions by steam-activated sulphurised carbon prepared from sugar-cane bagasse pith: Kinetics and equilibrium studies K Anoop Krishnan and TS Anirudhan	147
An empirical study of factors influencing lime slaking Part II: Lime constituents and water composition JH Potgieter, SS Potgieter and D de Waal	157
Arsenic removal from drinking water using granular ferric hydroxide OS Thirunavukkarasu, T Viraraghavan and KS Subramanian	161
The effect of a water-hygiene educational programme on the microbiological quality of container-stored water in households NP Nala, P Jagals and G Joubert	171
Detection of viable toxigenic <i>Vibrio cholerae</i> and virulent <i>Shigella</i> spp. in environmental waters by pit-stop seminested polymerase chain reaction assays M du Preez, SN Venter and J Theron	177
Pollution assessment in the Keiskamma River and in the impoundment downstream OS Fatoki, P Gogwana and AO Ogunfowokan	183
The application of geographic information systems (GIS) in the analysis of nutrient loadings from an agro-rural catchment S Mtetwa, S Kusangaya and CF Schutte	189
Verification of rainfall forecasts for the Vaal Dam catchment for the summer rainfall seasons of 1994 to 1998 HG Marx, LL Dyson and J van Heerden	195
Structure and precursors of the 1992/93 drought in KwaZulu-Natal, South Africa from NCEP reanalysis data Lawrence T Dube and Mark R Jury	201
Control options for river water quality improvement: A case study of TDS and inorganic nitrogen in the Crocodile River (South Africa) Tolessa Deksissa, Peter J Ashton and Peter A Vanrolleghem	209
<i>Rapid communication</i>	
The accuracy of fluoride measurement in water and its implications for water fluoridation Johannes Haarhoff	219
<i>Short communication</i>	
Evaluation of the Cape Town Protocol for the isolation of <i>Campylobacter</i> spp. from environmental waters SM Diergaardt, SN Venter, M Chalmers, J Theron and VS Brözel	225
