

CONTENTS

PART ONE: INTRODUCTION.....	5
◆ Aim of this handbook.....	5
◆ Background to the research.....	5
◆ A socio-economic approach.....	5
◆ Methodology.....	6
◆ Research findings.....	6
◆ Overview of findings.....	8
◆ Conclusion.....	8
PART TWO: LESSONS TO BE LEARNT.....	9
◆ Community experience of on-site sanitation systems:.....	9
→ women.....	10
→ concerns of the disabled and elderly.....	11
→ findings from the blind.....	12
→ churches, shebeens, spazas and other businesses.....	12
→ youth findings.....	12
→ professionals including community workers and health workers.....	13
◆ Guidelines for the selection of on-site sanitation systems.....	15
◆ Other players including local authorities, manufacturers of sanitation systems, consulting engineers and other professionals.....	17
PART THREE: HOW TO BENEFIT FROM THE RESEARCH.....	18
◆ Involving the community.....	18
◆ Consulting your local authority.....	19
◆ Relationship with the manufacturers.....	19
◆ Relationship with the consulting engineers.....	19

This handbook is based on the report: "Evaluation of On-site Sanitation Systems for Applicability in Low-cost Housing from a Socio-Economic Perspective", financed by the Water Research Commission (WRC) and is approved for publication. Approval does not signify that the contents necessarily reflect the views and policies of the WRC or the members of the project steering committee, nor does the mention of trade names or commercial products constitute endorsement or recommendation for use.
