Chapter 1	1
Introduction	1
<i>Much water under many bridges: The history of the catchments, rivers, and drainage systems of greater Cape Town</i>	2
<i>The waterways and water bodies</i>	3
<i>Groundwater and seeps</i>	5
Layout of the book	5
Chapter 2	7
The physical template	7
<i>Geology</i>	9
<i>Geomorphological development</i>	10
The effects of changes in sea level	11
<i>The proto-rivers of Stellenbosch and Paarl</i>	11
<i>The proto-rivers of the Cape Flats and False Bay</i>	13
<i>The inverted Diep River</i>	14
The rivers of the peninsulas	14
<i>Modern-day division of river basins</i>	14
<i>Hydrology and rainfall</i>	16
Rainfall and river flow patterns	18
<i>Groundwater</i>	18
Primary aquifers	18
Secondary aquifers	19
And so ...	20
Chapter 3	21
Rivers as ecological systems	21
<i>The river continuum</i>	22
Mountain source and cliff waterfall	22

Mountain-stream zone	24
Foothill zone	24
Transitional zone	27
Lowland zone	27
Estuary	27
Wetlands and vleis	27
<i>Flow regimes and flooding</i>	30
Rivers	30
Estuaries	32
<i>Chemistry</i>	32
Phosphorus as a limiting nutrient	34
<i>Riparian vegetation</i>	34
Zonation of the riparian vegetation	36
<i>Headwater and mountain streams</i>	36
<i>Foothills</i>	36
<i>Transitional and lower rivers</i>	38
<i>Estuaries</i>	38
The influence of geology	39
Invasion by alien species	39
Invasives of water bodies	41
<i>Aquatic invertebrates</i>	42
Catchment signatures	43
<i>Fish</i>	44
Indigenous fish	44
Alien fish	44
<i>Other threats to indigenous freshwater fish</i>	46
Fishy success stories	46
Estuarine fish	47
<i>Frogs</i>	49
<i>Birds</i>	51
<i>Biodiversity and endemism</i>	53
<i>The river crab</i>	53
<i>The Cape galaxias – a paleo-endemic</i>	54
Chapter 4	55
Water supply, drainage and the settlement of Cape Town	55
<i>The San</i>	56
<i>The Khoikhoi</i>	56
<i>Visitors from afar</i>	57

<i>European settlement</i>	58
<i>Development of a drainage system</i>	59
Cape Town under the VOC	59
British rule	64
<i>Water supply</i>	64
<i>Wastewater removal</i>	68
<i>Rigby's stormwater scheme</i>	72
<i>A new harbour</i>	73
<hr/>	
Chapter 5	77
Urbanisation: the spread of Cape Town	77
<i>Water supply</i>	81
The ever-expanding water requirements of Cape Town	82
Water supply to the modern city	88
<i>Table Mountain schemes</i>	89
<i>The Steenbras Scheme</i>	89
<i>The Southern Peninsula schemes</i>	91
<i>The Wemmershoek Water Supply Scheme</i>	91
<i>The Voëlvlei Government Water Supply Scheme</i>	92
<i>The Lourens River dams</i>	92
<i>The Riviersonderend-Berg River Government Water Supply Scheme</i>	93
<i>The Berg River Government Water Scheme</i>	93
Looking to the future	93
<i>Wastewater treatment</i>	94
<hr/>	
Chapter 6	97
The effects of urbanisation on the rivers and wetlands	97
<i>Water quantity</i>	100
Vulnerability to floods	100
Canalisation and channelisation of the rivers and wetlands	101
<i>Water quality</i>	101
Sewage effluent	102
<i>River maintenance</i>	103
<i>Monitoring of rivers and wetlands</i>	105
The National River Health Programme	105
Ecological health	105

Chapter 7	107
Rivers of the City Bowl	107
<i>Platteklip Stream</i>	108
<i>Third Stream, Zwartrivier and Molenwater</i>	111
<i>Capelsloot</i>	112
Chapter 8	113
The Liesbeek Valley	113
<i>Snippets of history</i>	114
<i>Mountain springs and beer</i>	119
<i>Water power</i>	123
<i>Rondebosch Common</i>	124
<i>Some reservoirs of the Liesbeek catchment</i>	126
Kirstenbosch Reservoir	126
Newlands reservoirs	127
Mariendahl and Hendrick Dreyer's reservoirs	128
Mount Pleasant Reservoir	128
UCT Dam	128
<i>The realignment and canalisation of the Liesbeek</i>	128
<i>From upstream to downstream ...</i>	129
<i>Fish and insects of the Liesbeek</i>	131
<i>The Liesbeek Trail(s)</i>	133
Chapter 9	135
The Elsieskraal River and the Black River	135
<i>The early years</i>	136
<i>The Elsieskraal River</i>	137
Flooding and the Elsieskraal River	137
Tiervlei	140
<i>The Black River</i>	141
Valkenberg	143
Molenvliet	144
Nieuwe Molen Mill	144
Water quality problems in the Black River	144
Death of a(nother) wetland	146
M5-N2 Interchange wetland	146

The (side)canals of the Black River	146
<i>The Kromboom Canal</i>	147
<i>The Vygekraal Canal</i>	147
<i>The Bokmakierie Canal</i>	147
<i>The Jakkalsvlei Canal</i>	148
<i>The Kalksteenfontein Canal</i>	148
<i>The Blomvlei Canal</i>	148
Proudly Manenberg and "The Waterfront"	149
Chapter 10	151
Paarden Eiland and the Salt River Lagoon	151
<i>The early days</i>	152
<i>Wolraad Woltemade</i>	154
<i>Zoarvlei</i>	156
<i>Century City and Blouvlei</i>	157
<i>The present-day condition of the Salt River catchment</i>	158
Chapter 11	159
The Diep River	159
<i>The Diep River estuary</i>	161
The construction of a permanent lake at Rietvlei	164
Bridges	166
Woodbridge Island	166
"Reconstruction" of the permanent lake at Rietvlei	169
<i>The Mosselbank River</i>	172
Maasdrift Canal	172
Kalbaskraal River	173
<i>Other City rivers on the west coast (outside of the Diep River catchment)</i>	173
Sout River	173
Silwerstroom	176
Chapter 12	177
Zeekoevlei and its catchment	177
<i>Zeekoevlei and Rondevlei</i>	178
The Big Lotus "River"	182
The Little Lotus "River"	182
Rondevlei Nature Reserve	182
Urbanisation and the ecological functioning of Rondevlei and Zeekoevlei	186

<i>Cape Flats Wastewater Treatment Works</i>	191
<i>Princessvlei</i>	192
<i>The Pelican Park wetlands</i>	194
Chapter 13	195
Zandvlei and its catchment	195
<i>Zandvlei</i>	195
Marina da Gama	200
Capricorn Lake	203
<i>The Westlake River</i>	203
<i>The Greater Zandvlei Estuary: A local community/local authority success story</i>	204
<i>Diep/Sand River and Little Princessvlei</i>	205
<i>Keyzers River</i>	205
The Spaanschemat River	207
The Grootbosch Stream	208
Prinsesteek River	208
Bergvliet Farm and Die Oog	209
Chapter 14	213
The Hout Bay River	213
<i>The effects of time</i>	214
Water supply and the Hout Bay River	216
<i>Cause and effect: flooding and erosion in the Hout Bay River</i>	220
<i>Controversy in the Hout Bay Valley</i>	222
Bridges	224
The Hout Bay Golf Club	226
<i>Memories of the Hout Bay Golf Club</i>	226
<i>The Hout Bay Estuary</i>	227
<i>Rehabilitation efforts</i>	227
Coast Care	228
Chapter 15	229
The rivers of the Southern Peninsula	229
<i>Aliens, fires and flooding</i>	230
<i>Silvermine River</i>	232
Silvermine Estuary	232

<i>A natural resistance to alien fish</i>	235
Silvermine Dam	235
The Lower Silvermine River Flood Alleviation Scheme	235
<i>Elsjes River</i>	239
<i>South Peninsula Wetlands Rehabilitation Project</i>	240
GEESE	241
<i>The Klawersvlei River</i>	241
<i>Cape Point rivers and vleis</i>	242
Schusters River	242
Klaasjagters River	242
Why is there water in Sirkelsvlei?	243
Buffels River	243
<i>Water supply to the Peninsula towns</i>	244
Fish Hoek	244
Simon's Town	245
<hr/>	
Chapter 16	247
The Noordhoek Wetlands	247
<i>Papkuilsvlei</i>	249
<i>Lake Michelle</i>	249
<i>Noordhoek Beach backshore lagoons</i>	250
<i>The Wildevoëlvleis</i>	251
Deadly blooms	252
<i>Fish of the Wildevoëlvleis</i>	255
<i>Bokramspruit</i>	255
Restoration of the Noordhoek Wetlands – The Santam Cape Argus Ukuvuka Operation Firestop Campaign	256
<i>Brookwood Stream</i>	256
<hr/>	
Chapter 17	257
The Kuils River and the drift sands	257
<i>The coming of Khayelitsha</i>	260
Resource use in the Mfuleni Wetlands	265
Nooiensfonteinlei	265
The Dreamworld Wetlands	266
<i>The Bottelary River</i>	267

Chapter 18	269
The Eerste River	269
<i>The early years</i>	270
Early Stellenbosch	271
A valuable source of water	271
A flood danger	272
<i>From source to sea</i>	275
Interbasin transfer	278
<i>Tributaries of the Eerste River</i>	278
Plankenbrug River	278
Veldwachters and Sanddrif rivers	278
The Blouklip and Bonte rivers	279
The Moddergat River	280
<i>The Eerste River estuary</i>	281
<i>Estuarine fish</i>	284
Chapter 19	285
The Lourens River (and two other rivers on the way to the interior)	285
<i>The effects of time</i>	286
<i>Flooding and flood alleviation initiatives in the Lourens River</i>	287
<i>The historic bridge</i>	290
<i>The Lourens River estuary</i>	291
<i>Paardevlei</i>	292
<i>Setting a precedent ...</i>	293
<i>There was an old woman who swallowed a fly ...*</i>	295
<i>The Soete River</i>	296
<i>Sir Lowry's River</i>	296
The diversion canal	297
Chapter 20	299
The economics of the rehabilitation of rivers and wetlands	299
<i>Themba the Edutrain</i>	302
<i>The economic value of aquatic ecosystems</i>	302
What are the rivers and wetlands of Cape Town worth?	306
Historic changes in value	306
<i>Trying to get a handle on the numbers</i>	307
<i>Expenditure on routine aquatic ecosystem management in Cape Town</i>	309

Conservation of rivers and wetlands in protected areas	309
Flood control and water quality maintenance	311
General maintenance	312
Is this enough?	314
<i>Does rehabilitation of urban rivers and wetlands make economic sense?</i>	314
The Peninsula Project	316
Chapter 21	319
Looking to the future	319
<i>Not the beginning, nor the end</i>	320
Planning frameworks in the City of Cape Town	322
Safeguarding waterways and water bodies at all levels	323
<i>A catalogue of rivers and wetlands</i>	324
<i>Urban river and wetland buffer zones</i>	325
<i>Realistic budgets</i>	327
Give rivers and wetlands their own Erf numbers	327
<i>Compliance enforcement</i>	328
<i>Dealing with floods</i>	330
Opportunities for limiting future flood damage	330
Do-it-ourselves flood attenuation	331
<i>Reduce our "catchment-hardening" footprint</i>	331
<i>Rain tanks</i>	331
<i>Looking after what we've got</i>	333
<i>River wardens</i>	333
<i>Softening the blow</i>	336
<i>Rehabilitating rivers and wetlands</i>	338
Re-creating buffer zones	338
Erosion repair	338
Re-creating seasonal vleis	339
<i>Local is lekker!</i>	340
The value of islands	340
The value of small projects	341
The Western Cape Wetlands Forum	341
Safety issues	342
Learning by doing	342
Cape Action Plan for People and the Environment (C.A.P.E.)	342
Paying for it	343
Partnerships	344
<i>How a river helped Seoul reclaim its heart and soul</i>	345
<i>Thank you and best wishes</i>	346
