PREFACE .....	(iii)
AUTHORS & REVIEWERS .....	(iv)
FOREWORD .....	(v)
<b>1. GENERAL DESIGN CONSIDERATIONS .....</b>	<b>F A VAN DUUREN .....</b>
1.1 INVESTIGATION PHASE .....	1
1.2 DESIGN AND SPECIFICATION .....	6
1.3 TENDER PROCEDURE .....	7
1.4 DETAILED DESIGN .....	8
1.5 CONSTRUCTION AND COMMISSIONING .....	9
1.6 OPERATION CONTROL AND MANAGEMENT .....	10
1.7 MONITORING .....	10
<b>2. WATER NEEDS AND QUALITY .....</b>	<b>A BELL .....</b>
2.1 BRIEF OVERVIEW OF WATER SOURCES IN THE RSA .....	12
2.2 SOURCE MONITORING .....	15
2.3 WATER DEMANDS AND NEEDS .....	17
2.4 WATER QUALITY .....	24
2.5 DESIGN .....	32
<b>3. PROCESS SELECTION .....</b>	<b>J HAARHOFF .....</b>
3.1 CHARACTERISATION OF RAW WATER .....	34
3.2 SLOW SAND FILTRATION .....	37
3.3 CHOICE OF COAGULANT .....	39
3.4 WATER STABILITY .....	40
3.5 PHASE SEPARATION .....	41
3.6 DISINFECTION .....	42
3.7 SPECIFIC PROBLEM COMPOUNDS .....	43
3.8 MANAGEMENT AND DOSING OF CHEMICALS .....	47
3.9 MANAGEMENT OF SLUDGE AND WASHWATER .....	47
3.10 PROCESS SELECTION DIAGRAMS AND REPORT .....	48
3.11 COMPUTER-AIDED PROCESS SELECTION .....	48
3.12 PILOT-PLANT TESTING .....	49

<b>4.</b>	<b>INTAKES .....</b>	<b>F A VAN DUUREN .....</b>	<b>51</b>
4.1	TYPES OF INTAKE .....		51
4.2	WATER QUALITY AND LOCATION .....		54
4.3	FLOWS .....		55
4.4	DESIGN CONSIDERATIONS AND CRITERIA .....		56
4.5	EXAMPLES .....		58
<b>5.</b>	<b>PRETREATMENT .....</b>	<b>G E RENCKEN .....</b>	<b>62</b>
5.1	RAW WATER QUALITY FACTORS .....		62
5.2	SUSPENDED SOLIDS REMOVAL .....		63
5.3	RAW WATER WITH VERY LOW SUSPENDED SOLIDS CONCENTRATION .....		65
5.4	TASTE AND ODOUR REMOVAL .....		66
5.5	ORGANIC CONSTITUENTS .....		70
5.6	IRON AND MANGANESE REMOVAL .....		72
5.7	ALGAE REMOVAL .....		75
5.8	COLOUR REMOVAL .....		78
5.9	FURTHER APPLICATIONS OF PRE-OXIDATION .....		78
<b>6.</b>	<b>COAGULATION, COAGULANTS AND CHEMICALS .....</b>	<b>F A VAN DUUREN .....</b>	<b>80</b>
6.1	COAGULATION .....		80
6.2	COAGULANTS AND COAGULANT AIDS .....		87
6.3	THE JAR TEST .....		88
6.4	CHEMICALS .....		91
6.5	WORKS EXAMPLE .....		98
<b>7.</b>	<b>DOSING AND MIXING .....</b>	<b>F A VAN DUUREN .....</b>	<b>99</b>
7.1	THEORY OF MIXING .....		99
7.2	CHEMICAL FEEDING METHODS AND DEVICES .....		102
7.3	MIXING DEVICES .....		104
7.4	DESIGN CRITERIA .....		111
<b>8.</b>	<b>FLOCCULATION .....</b>	<b>F A VAN DUUREN .....</b>	<b>112</b>
8.1	THEORY OF FLOCCULATION .....		112
8.2	FLOC CHARACTERISTICS .....		115
8.3	DESIGN CONSIDERATIONS .....		116
8.4	TYPES OF FLOCCULATORS .....		118
8.5	DESIGN CRITERIA .....		124

<b>9.</b>	<b>SEDIMENTATION</b> .....	<b>F A VAN DUUREN</b> .....	<b>126</b>
9.1	SEDIMENTATION THEORY .....		126
9.2	TANK SHAPE AND CONFIGURATION .....		127
9.3	TYPES OF TANK .....		128
9.4	SUSPENSION CHARACTERISTICS .....		131
9.5	HYDRAULICS .....		132
9.6	SEDIMENTATION VELOCITIES .....		133
9.7	WEIR OVERFLOW RATES .....		134
9.8	DESLUDGING .....		135
9.9	SEDIMENTATION EFFICIENCY .....		135
9.10	DESIGN CRITERIA .....		137
9.11	EXAMPLES .....		137
<b>10.</b>	<b>CLARIFICATION</b> .....	<b>F A VAN DUUREN</b> .....	<b>139</b>
10.1	Theory and operation .....		140
10.2	The flocculator mechanism .....		142
10.3	THE FILTER MECHANISM .....		143
10.4	FLOC PRODUCTION AND SEPARATION .....		144
10.5	CLARIFIED WATER COLLECTION .....		145
10.6	TYPES OF CLARIFIER .....		147
10.7	EFFICIENCY OF CLARIFICATION .....		151
10.8	DESIGN CONSIDERATIONS AND CRITERIA .....		151
<b>11.</b>	<b>DISSOLVED AIR FLOTATION</b> .....	<b>L R J VAN VUUREN</b> .....	<b>153</b>
11.1	FUNDAMENTALS .....		153
11.2	DESIGN CONSIDERATIONS AND CRITERIA .....		167
11.3	DESIGN EXAMPLES .....		173
<b>12.</b>	<b>FILTRATION</b> .....	<b>J HAARHOFF</b> .....	<b>180</b>
12.1	CAPTURE OF PARTICLES IN A GRANULAR BED .....		180
12.2	FLOW THROUGH POROUS MEDIA .....		184
12.3	MEDIA CLEANING .....		190
12.4	RAPID GRAVITY FILTER DESIGN .....		195
12.5	SLOW SAND FILTER DESIGN .....		202
12.6	SERIES FILTRATION .....		203

<b>13.</b>	<b>STABILISATION .....</b>	<b>H WIECHERS .....</b>	<b>206</b>
13.1	AGGRESSION .....		207
13.2	CORROSION AND PASSIVATION .....		209
13.3	WATER STABILISATION AND THE CARBONATE SYSTEM .....		209
13.4	TYPICAL STABILISATION CALCULATIONS .....		211
<b>14.</b>	<b>DISINFECTION .....</b>	<b>W A PRETORIUS .....</b>	<b>217</b>
14.1	GENERAL ASPECTS OF DISINFECTION .....		217
14.2	DISINFECTION WITH CHLORINE .....		224
14.3	DESIGN OF CHLORINATION FACILITIES .....		226
<b>15.</b>	<b>SLUDGE AND WASHWATER .....</b>	<b>G E RENCKEN .....</b>	<b>230</b>
15.1	PROPERTIES AND QUANTITIES OF SLUDGE AND FILTER WASHWATER .....		230
15.2	FILTER WASHWATER .....		233
15.3	SLUDGE AND WASHWATER STORAGE .....		233
15.4	SLUDGE THICKENING .....		234
15.5	SLUDGE DEWATERING .....		242
15.6	ULTIMATE DISPOSAL AND POTENTIAL COMMERCIAL USE OF SLUDGES/CAKES .....		261
<b>16.</b>	<b>TREATMENT PROCESSES .....</b>	<b>G JUBY .....</b>	<b>263</b>
16.1	ADSORPTION .....		263
16.2	DESALINATION/DEMINERALISATION .....		270
16.3	FLUORIDATION .....		275
16.4	DEFLUORIDATION .....		277
16.5	NITRATE/NITRITE ( $\text{NO}_3^-/\text{NO}_2^-$ ) REMOVAL .....		279
16.6	WATER SOFTENING .....		280
16.7	AERATION .....		284
16.8	IRON AND MANGANESE REMOVAL .....		286
16.9	COLOUR REMOVAL .....		290
<b>17.</b>	<b>MECHANICAL AND ELECTRICAL EQUIPMENT .....</b>	<b>A BELL .....</b>	<b>293</b>
17.1	PUMPS .....		293
17.2	FANS, BLOWERS AND COMPRESSORS .....		301
17.3	MOTIVE POWER AND ELECTRICITY .....		305
17.4	FLOW IN PIPES AND CANALS .....		308
17.5	VALVES AND GATES .....		313
17.6	FLOW METERS .....		316
17.7	CORROSION .....		317
17.8	DESIGN CONSIDERATIONS AND CRITERIA .....		317

<b>18.</b>	<b>INSTRUMENTATION AND PROCESS CONTROL</b> .....	<b>F J RETIEF</b> .....	320
18.1	FUNCTIONS OF INSTRUMENTATION IN WATER WORKS .....		321
18.2	PROCESS MEASUREMENT TECHNIQUES .....		325
18.3	DECISION-MAKING EQUIPMENT .....		330
18.4	FINAL ACTUATORS .....		332
18.5	OPERATOR INTERFACES .....		334
18.6	COMMUNICATIONS .....		338
18.7	RELIABILITY AND MAINTENANCE .....		340
<b>19.</b>	<b>DESIGN EXAMPLE</b> .....	<b>P J PYBUS</b> .....	342
19.1	LAYOUT AND GENERAL CONSIDERATIONS .....		342
19.2	DETAILED LAYOUT .....		345
19.3	DESIGN EXAMPLES .....		346
19.4	COAGULATION AND CHEMICALS .....		346
19.5	FLOCCULATION .....		348
19.6	SEDIMENTATION .....		348
19.7	RAPID GRAVITY SAND FILTER .....		349
19.8	DISINFECTION .....		349
<b>20.</b>	<b>COST ESTIMATING AND EVALUATION</b> .....	<b>P J PYBUS</b> .....	350
20.1	PROJECT CYCLES AND FUNDING AGENCY .....		350
20.2	ACCURACY OF COST ESTIMATES .....		351
20.3	GLOBULAR COST ESTIMATES .....		352
20.4	PRELIMINARY COST ESTIMATES .....		353
20.5	ESTIMATES FOR CIVIL CONSTRUCTION .....		354
20.6	FEASIBILITY ESTIMATES .....		355
20.7	COST OPTIMISATION .....		357
20.8	CALCULATION OF REFERENCE UNIT VALUE OF WATER .....		358
20.9	DESIGN OUTLOOK .....		359
20.10	CHECKLIST FOR ESTIMATING COST OF WATER WORKS .....		360
<b>21.</b>	<b>OPERATION, CONTROL AND MANAGEMENT</b> .....	<b>D NOZAIC</b> .....	362
21.1	OPERATION .....		362
21.2	MAINTENANCE .....		374
21.3	SUPERVISION .....		376
21.4	MANAGEMENT .....		378
21.5	CONTROL .....		379
21.6	SAFETY .....		381
21.7	PUBLIC RELATIONS .....		383
21.8	DESIGN AND ITS EFFECTS ON OPERATION .....		384
