

TABLE OF CONTENTS

EXECUTIVE SUMMARY

ACKNOWLEDGEMENTS

CHAPTERS

1 INTRODUCTION

- 1.1 BACKGROUND
- 1.2 OBJECTIVES OF THIS PROJECT
- 1.3 HYDROLOGICAL MODELLING IN GENERAL
- 1.4 WATER QUALITY MODELS
- 1.5 STUDY AREAS

2 MODEL DEVELOPMENT AND LINKAGE

- 2.1 INTRODUCTION TO THE ACRU-MODEL
- 2.2 THE WASHMO-MODEL
 - 2.2.1 Introduction to the WASHMO-Model
 - 2.2.2 Hydrograph development in WASHMO
 - 2.2.2.1 Hydrograph development: Haan's Unit Hydrograph
 - 2.2.2.2 Hydrograph development: TVA double triangle Unit Hydrograph
 - 2.2.3 Improvements and changes made in the WASHMO-model

- 2.2.3.1 Pervious and impervious areas
 - 2.2.3.2 The development of synthetic rainfall distributions for South African rainfall events for use in the the WASHMO-model
 - 2.2.3.3 Own rainfall distribution
 - 2.2.4 ACRU as a single event storm for design purposes
- 2.3 THE WATER QUALITY MODEL (ACRU-NPS)
 - 2.3.1 Introduction
 - 2.3.2 Accumulation and washoff of pollutants
 - 2.3.3 Percentage contribution of atmospheric fallout to the pollutant loads from a catchment
- 2.4 LINKAGE INTO THE ACRU-MODEL

3 STUDY AREAS

- 3.1 INTRODUCTION
- 3.2 THE PALMIET RIVER CATCHMENT
 - 3.2.1 Location
 - 3.2.2 Topography
 - 3.2.3 Hydrology
 - 3.2.4 Soil types
 - 3.2.5 Vegetation
- 3.3 THE PINETOWN CATCHMENT
 - 3.3.1 Location
 - 3.3.2 Topography

3.3.3 Hydrology

3.3.4 Soil types

3.3.5 Vegetation

3.4 LAND USE

3.4.1 Palmiet River Catchment

3.4.2 Pinetown Catchment

4 DATA COLLECTION AND ANALYSIS

4.1 INTRODUCTION

4.2 RAINFALL

4.3 STREAMFLOW

4.4 WATER QUALITY

4.4.1 Selected water quality constituents

4.4.2 Water sampling methods

4.5 DATA ANALYSIS

4.5.1 Monthly base flow water quality data

4.5.2 Annual base flow data

4.5.3 Base flow data against high flow data

4.5.4 Hydrograph water quality sampling

4.5.5 Weekly fallout rates at the University of Durban-Westville

5 MODEL APPLICATIONS

5.1 INTRODUCTION

5.2 THE PINETOWN CATCHMENT (1982 to 1985)

5.2.1 Water quality simulations

5.2.2 Hydrograph simulations

5.3 THE PALMIET CATCHMENT (1992 to 1994)

5.3.1 Runoff simulations

5.3.2 Water quality simulations

5.4 CONCLUSION

6 CONCLUSIONS, RECOMMENDATIONS AND FURTHER RESEARCH
