ACKNOWLEDGEMENTS	ii
EXECUTIVE SUMMARY	iii
1. INTRODUCTION	1.1
1.1 Introduction to the project	1.1
1.2 Research Objectives	1.1
1.3 Research Method	1.1
1.3.1 Collection and use of existing data from water permits and EMPRs ...	1.5
1.3.2 Set up of database from the collected data	1.5
1.3.3 Generation of water balances for each mine	1.6
1.3.4 Identification of problems regarding quality of the data	1.6
1.3.5 Categories of mining activities	1.6
1.4 Report Structure	1.7
2. WATER BALANCE FOR OPEN CAST MINES WITH BENEFICIATION PLANTS	2.1
3. WATER BALANCE FOR OPEN CAST MINES WITHOUT BENEFICIATION PLANTS	3.1
4. WATER BALANCE FOR UNDERGROUND BORD & PILLAR MINES WITH BENEFICIATION PLANTS	4.1
5. WATER BALANCE FOR UNDERGROUND BORD & PILLAR MINES WITHOUT BENEFICIATION PLANTS	5.1
6. WATER BALANCE FOR TOTAL EXTRACTION MINES WITH BENEFICIATION PLANTS	6.1
7. WATER BALANCE FOR COMBINED OPENCAST AND UNDERGROUND BORD & PILLAR MINES WITH BENEFICIATION PLANTS	7.1
8. WATER BALANCE FOR COMBINED OPENCAST AND UNDERGROUND BORD & PILLAR MINES WITHOUT BENEFICIATION PLANTS	8.1
9. EVALUATION OF EFFECT OF BENEFICIATION PLANTS ON WATER BALANCES FOR DIFFERENT TYPES OF MINING	9.1
9.1 Open Cast Mines With Beneficiation Plants Vs Open Cast Mines Without Beneficiation Plants	9.1
9.2 Underground Bord & Pillar Mines With Beneficiation Plants Vs Underground Bord & Pillar Mines Without Beneficiation Plants	9.2
9.3 Underground Total Extraction With Beneficiation Plants Vs Underground Total Extraction Without Beneficiation Plants	9.3
9.4 Open Cast And Underground Bord & Pillar Mines With Beneficiation Plants Vs Open Cast And Underground Bord & Pillar Mines Without Beneficiation Plants.....	9.3

CONTENTS

	Page
9.5 General Comments.....	9.3
10. WATER BALANCE COMPARISONS FOR MINES LOCATED IN THE OLIFANTS RIVER AND VAAL RIVER CATCHMENTS.....	10.1
10.1 Olifants River Catchment.....	10.1
10.2 Vaal River Catchment.....	10.3
11. OVERALL WATER BALANCE FOR THE SOUTH AFRICAN COAL MINING INDUSTRY.....	11.1
11.1 Usage of Board Water.....	11.5
11.2 Usage of Rain Water.....	11.5
11.3 Usage of River Water.....	11.6
11.4 Usage of Ground Water.....	11.7
11.5 Usage of Water From Unspecified Sources.....	11.7
11.6 Human Consumption of Water.....	11.8
11.7 Water Discharge to Rivers.....	11.9
11.8 Moisture on Product and Discard.....	11.9
11.9 Water Lost to Evaporation.....	11.10
11.10 Water Discharged to Unspecified Sinks.....	11.11
11.11 Total Water Sources and Sinks.....	11.11
12. CONCLUSIONS AND RECOMMENDATIONS.....	12.1
APPENDIX 1: COAL MINE SURVEY QUESTIONNAIRE	
APPENDIX 2: INDIVIDUAL MINE WATER BALANCES	
APPENDIX 3: RAW DATA TABLES	

LIST OF TABLES

	Page
Table 1: Description of generic water balance streams	1.4
Table 2: Summary of data collected	1.7
Table 3: Summary of the statistics for open cast mines with beneficiation plants	2.3
Table 4: Summary of the statistics for underground bord & pillar mines with beneficiation plants	4.3
Table 5: Summary of the statistics for combined opencast and underground bord & pillar mines with beneficiation plants	7.3
Table 6: Summary of the statistics for combined opencast and underground bord & pillar mines without beneficiation plants	8.3
Table 7: Summary of water sources data for all survey mines	11.3
Table 8: Summary of water sinks data for all survey mines	11.4
