

## TABLE OF CONTENTS

1.	INTRODUCTION	1
1.1	The need for riparian vegetation monitoring	1
1.2	Challenges with riparian vegetation monitoring and an RVI	1
2.	PROJECT REQUIREMENTS AND CONSIDERATIONS	2
2.1	Terms of reference	2
2.2	Objectives of the RVI	2
2.3	Design considerations	3
2.4	The RVI in context	4
2.5	Definitions	4
3.	DEVELOPMENT OF THE RVI	5
3.1	The aerial based RVI	5
3.1.1	Background	5
3.1.2	Method	5
3.2.	The site based RVI	7
3.2.1	Phases of development	7
3.2.2	RVI derivation and its components	8
4.	APPLICATION OF THE RVI	10
4.1	Aerial based RVI	10
4.1.1	Assessment of impact criteria	10
4.1.2	Graphical output	11
4.2	Site based RVI	12
4.2.1	Resource and equipment requirements	12
4.2.2	Site assessment	13
4.2.3	RVI integration into the RHP database	18
4.3	Problems / limitations encountered	18
4.3.1	Site selection	18
4.3.2	Sensitivity	18
4.3.3	Representation	18
5.	RECOMMENDATIONS	18
5.1	Aerial based versus site based RVI	18
5.2	Implementation of the RVI	19
5.3	RVI training	19
5.4	Refinements and changes to the RVI	19
5.5	Future research needs	20
6.	ACKNOWLEDGEMENTS	20
7.	REFERENCES	20
