

TABLE OF CONTENTS

	Page
Executive Summary i
Acknowledgements x
Table of Contents xi
List of Tablesxiii
List of Figuresxiv
List of Acronyms xv
1. INTRODUCTION AND CONTEXT1
1.1 Background and Terms of Reference1
1.2 Aims2
1.3 Approaches Taken3
2. CONCEPTUAL BASIS FOR THE GEOMORPHOLOGICAL REFERENCE CONDITION – A REVIEW OF RELEVANT LITERATURE5
2.1 Geomorphological Change5
2.2 The Reference Condition Concept6
2.3 International Application of the Reference Condition Concept7
2.4 The Reference Condition Concept in the South African Context13
2.5 The Concept of the Geomorphological Reference Condition in RSA16
2.6 Conclusion17
3. AN EMPIRICAL APPROACH TO DETERMINING THE REFERENCE CONDITION FOR SOUTH AFRICAN RIVERS	..21
3.1 Introduction21
3.2 Data Collection23
3.3 Data Analysis28
3.4 Results29
3.5 Discussion36
3.6 Conclusion38

4.	DEVELOPMENT AND APPLICATION OF THE GEOMORPHOLOGY DRIVER ASSESSMENT INDEX39
4.1	Introduction39
4.2	Guidelines for Assessing the Present Ecological State for Geomorphology46
4.3	The Final Driver Status73
4.4	Application of the Geomorphology Driver Assessment Index.....	75
4.5	Conclusion77
5.	ADOPTING A SYSTEMS PARADIGM IN FLUVIAL GEOMORPHOLOGY79
5.1	Introduction79
5.2	Where Geomorphological Systems Fit In83
5.3	Systems Theory85
5.4	Relevance of the Systems Paradigm to this Project93
5.5	Glossary Of Systems Terminology Introduced in this Chapter94
6.	CONCLUSIONS97
6.1	Summary of Aims97
6.2	New Directions100
	REFERENCES103

The following appendices are provided on a CD

APPENDIX 1	Field form in use and original field form
APPENDIX 2	Spreadsheet for assessment of PGS
APPENDIX 3	Summary Table : List of Sites and Geomorphological Data per site, collected to date

LIST OF TABLES

Table 2.1	Geomorphological Zonation of River Channels (after Rowntree & Wadeson, 1999)18
Table 2.2	Summary of International Reference Condition Concepts.....	20
Table 3.1	Definitions of Impact Classes "A" to "F"24
Table 4.1	Generic Descriptions of Ecological Categories (Kleynhans <i>et al.</i> , 2005)41
Table 4.2	Summary of the Reach Types Found in Alluvial Systems (modified from Rowntree & Wadeson, 1999)51
Table 4.3	Summary of the Reach Types Found in Bedrock Controlled Systems (modified from Rowntree & Wadeson, 1999)51
Table 4.4	Morphological Units in Bedrock Controlled Systems (Modified from Rowntree & Wadeson, 1999)52
Table 4.5	Classification of Alluvial Morphological Units (Modified from Rowntree & Wadeson, 1999)53
Table 4.6	Habitat Rating Categories (Modified from Table 4.1)55
Table 4.7	Guidelines for Rating Changes to Sediment Supply60
Table 4.8	Guidelines for Rating Changes to Transport Capacity63
Table 4.9	Guidelines for Confidence Ratings72
