

TABLE OF CONTENTS

Executive Summary	iii
Acknowledgements	vii
1 Introduction	1
1.1 Objectives	1
1.2 Scope of the Study	2
1.3 Project Deliverables	2
1.4 Composition of Final Report	3
2 Literature Survey (Deliverable 1)	5
2.1 Data Acquisition and Compilation	6
2.1.1 Sourcing of Documentation	6
2.1.2 Categorisation of Documentation	6
2.1.3 Combined and Separate Sewer Systems	7
2.2 Outcomes from the Literature Survey	7
3 Review of Outcomes from the National Workshop Sessions (Deliverable 2)	8
4 Review of the Gap-Analysis (Deliverable 3)	12
4.1 Methodology for Compilation and Prioritisation of Research Needs	12
4.1.1 General Methodology	12
4.1.2 Measure of the Need for Particular Research	13
5 Published Trends in Research	15
5.1 Documented International Research Needs	15
5.2 Local Needs	15
5.3 Current WRC Focus on Sewer Reticulation	17
6 Topics Identified by the Research Team	17
6.1 Fundamental Research Projects	18
6.2 Applied Research Projects	18
6.3 Management and Other Research	19
6.4 Projects Identified Where Dissemination is Necessary	19
6.5 Project Prioritisation and Funding	19
7 Conclusions	20
8 Recommendations	20
References	21

Annexures (appearing on the enclosed CD)

Annexure A: Summary of Conclusions and Needs from the Literature Survey

Annexure B: Excerpts from National Audit of Sewer Issues Report

Annexure B1: Attendance Register

Annexure B2: Excerpt from Analysis of Status Quo Matrices

Annexure B3: Excerpt from Analysis of Research Needs Matrices

Annexure C: Gap-Analysis Report

Annexure D: Proposed Research Projects

List of Tables

Table 1: Project Team	vii
Table 2: Reference Group	vii
Table 3: Structure of Research Report and Final Dataset	3
Table 4: Ranking of Sewer Reticulation Issues	10
Table 5: Challenges Tasked to the DWAF	16
