## TABLE OF CONTENTS

EXECUTIVE SUMMARY	i
LIST OF FIGURES	ix
GLOSSARY OF ACRONYMS	xii
<b>1. INTRODUCTION</b>	<b>1</b>
1.1 Introduction to eutrophication and management orientated models	1
1.2 Detailed objectives of the project	2
1.3 Overview of research into management-orientated eutrophication control	4
1.4 Format of the report	5
<b>2. MODELLING THE COMPONENTS OF THE EUTROPHICATION PROCESS</b>	<b>6</b>
<b>3. MODELLING SUBSYSTEM 1</b>	<b>11</b>
3.1 Point sources	11
3.2 Nonpoint sources	13
3.3 Upstream reservoirs	16
3.4 Total amount of P exported	16
<b>4. MODELLING SUBSYSTEM 2</b>	<b>17</b>
4.1 Fate of Phosphorus in Reservoirs	17
4.2 Water balance for the reservoir	17
4.3 Numerical solution technique for solving the differential equations	18
4.4 Recalibration of the sedimentation parameter	22
4.4.1 Preparation of the calibration data	22
4.4.2 Conceptualization of the sedimentation process	24
4.4.3 Selection of an objective function	25
4.4.4 Calibration of the fixed sedimentation rate	25

4.4.5	Calibration of the concentration dependent sedimentation rate . . . . .	28
5.	<b>MODELLING SUBSYSTEM 3</b> . . . . .	35
5.1	Conversion of phosphorus to chlorophyll . . . . .	35
5.2	Conversion of phosphorus to chlorophyll a in clear water reservoirs . . . . .	36
5.3	Conversion of phosphorus to chlorophyll a in turbid reservoirs . . . . .	37
6.	<b>INTEGRATED MODELLING APPROACH</b> . . . . .	43
6.1	Introduction . . . . .	43
6.2	Introduction to Decision Support Systems . . . . .	43
6.3	The decision support system for eutrophication control (REMDSS) . . . . .	45
6.4	Development of the DSS for eutrophication control . . . . .	46
6.5	Utilization of the DSS for eutrophication control . . . . .	48
7.	<b>MANAGEMENT DECISION MODELS</b> . . . . .	52
7.1	Introduction . . . . .	52
7.2	The analytical hierarchy process . . . . .	52
7.3	Evaluation of the AHP as a decision making model . . . . .	53
7.3.1	Participants . . . . .	53
7.3.2	Selection of the best P control option for Hartbeespoort Dam . . . . .	55
7.3.3	Construction of the hierarchy . . . . .	56
7.4	Discussion . . . . .	63
8.	<b>APPLICATIONS OF REMDSS TO ASSESS EUTROPHICATION CONTROL MEASURES</b> . . . . .	67
8.1	Application of the DSS to assess the impact of the 1 mg P/l phosphorus standard on sensitive catchments. . . . .	67
8.2	Other applications of the DSS for eutrophication control . . . . .	68
9.	<b>UNCERTAINTY ANALYSIS</b> . . . . .	70
10.	<b>RECOMMENDATIONS ON RESEARCH NEEDS</b> . . . . .	72

---

10.1	Nitrogen limited systems . . . . .	72
10.2	Light limited systems . . . . .	72
10.3	Spatial Variability in water quality . . . . .	73
10.4	Sedimentation Release Processes . . . . .	74
11.	<b>REFERENCES</b> . . . . .	75

**APPENDIX A**

Publications, conference papers and reports produced in the project.

**APPENDIX B**

An example of the application of the DSS for eutrophication control to assess the impact of eutrophication control measures.
