| EXECUTIVE SUMMARY | I |
| Introduction | 1 |
| Objective | 1 |
| Soil Experiments | 1 |
| Water Culture Experiments | III |
| Conclusions | III |
| Recommendations | IV |
| ACKNOWLEDGEMENTS | V |
| CHAPTER 1 INTRODUCTION | 1 |
| 1.1 General | 1 |
| 1.2 Literature Review | 3 |
| 1.2.1 Upper Limit of Plant Available Water | 3 |
| 1.2.2 Soil Factors that Influence the Rhizosphere | 5 |
| 1.2.3 Water Status and its Influence in the Rhizosphere | 8 |
| 1.2.3.1 Plant Response and Tolerance to Waterlogging | 9 |
| 1.2.3.2 Disease Incidence and Occurrence | 11 |
| 1.3 Objectives of the Present Study | 12 |
| 1.4 Research Programme | 12 |
| CHAPTER 2 DEVELOPMENT AND EVALUATION OF RESEARCH METHODOLOGIES FOR THE REGULATION OF SOIL WATER IN POTS BY MEANS OF AN AUTOMATED ELECTRONIC SYSTEM | 14 |
| 2.1 Introduction | 14 |
| 2.2 Description of the Electronic System for the Regulation of Soil Water in Pots | 16 |
| 2.3 Comparisons of the Mechanical "Sommer" and Electronically Controlled "Pero" System for the Regulation of Soil Water in Pots | 19 |
| 2.3.1 General | 19 |
| 2.3.2 Experimental Evaluation | 21 |
| 2.3.3 Achievement of Objectives | 24 |
| 2.4 Primary Testing of the "Pero" System | 25 |
| 2.4.1 General | 25 |
| 2.4.2 Materials and Method | 25 |
| 2.4.3 Results and Discussion | 26 |
| 2.4.4 Conclusions | 29 |
| 2.5 Comparative Evaluation of the Effectiveness of the Pero System at Low and High Bulk Densities in a Dynamic Situation | 31 |
| 2.5.1 General | 31 |

| | |
|---|-----------|
| 2.5.2 Materials and Method. | 31 |
| 2.5.3 Results and Discussion. | 31 |
| 2.5.4 Conclusions. | 33 |
| 2.6 Artificial Nature of the Diurnal Fluctuations in Soil Water Potentials in Pots Observed at the University of Pretoria's Pero Facility. | 35 |
| 2.7 Conclusions. | 37 |
| CHAPTER 3 GENERAL RESEARCH PROCEDURES. | 38 |
| 3.1 Soil Water Regulation. | 38 |
| 3.2 Plant Material. | 38 |
| 3.3 Soils. | 38 |
| 3.4 Measurements. | 39 |
| 3.5 Root Hydraulic Conductivity. | 39 |
| 3.6 Aeration of Nutrient Solution. | 40 |
| 3.7 Fertilization and Pest Control. | 40 |
| 3.8 Statistical Analysis of the Results. | 40 |
| CHAPTER 4 EFFECTS OF SOIL COMPACTION ON YOUNG CITRUS PLANTS GROWING AT HIGH SOIL WATER POTENTIAL. | 41 |
| 4.1 Introduction. | 41 |
| 4.2 Materials and Treatments. | 41 |
| 4.3 Experiment 1. | 42 |
| 4.3.1 Results and Discussion. | 42 |
| 4.3.2 Conclusions. | 44 |
| 4.4 Experiment 2. | 45 |
| 4.4.1 Results and Discussion. | 45 |
| 4.4.1.1 Soil Water Potential. | 46 |
| 4.4.1.2 Water Consumption. | 46 |
| 4.4.1.3 Plant Growth and Development. | 55 |
| 4.4.1.4 Morphological and Physiological Plant Responses. | 59 |
| 4.4.2 Conclusions. | 62 |
| CHAPTER 5 EFFECTS OF SOIL COMPACTION AND SOIL WATER POTENTIAL ON NUTRIENT STATUS OF YOUNG ROUGH LEMON PLANTS. | 64 |
| 5.1 Introduction. | 64 |
| 5.2 Materials and Treatments. | 64 |
| 5.3 Results and Discussion. | 65 |
| 5.3.1 Soil Water Potential. | 65 |
| 5.3.2 Water Consumption. | 65 |
| 5.3.3 Plant Growth and Development. | 74 |
| 5.3.4 Morphological and Physiological Plant Responses. | 79 |
| 5.3.5 Nutrient Status of Leaves. | 86 |
| 5.4 Conclusions. | 91 |

| | |
|--|---------|
| CHAPTER 6 PERFORMANCE OF ROUGH LEMON SEEDLINGS AT DIFFERENT SOIL WATER POTENTIALS AND SOIL PHYSICAL CONDITIONS. | 92 |
| 6.1 Introduction. | 92 |
| 6.2 Experiment 1. | 92 |
| 6.2.1 Materials and Treatments. | 92 |
| 6.2.2 Results and Discussion. | 93 |
| 6.2.2.1 Soil Water Potential. | 93 |
| 6.2.2.2 Water Consumption. | 93 |
| 6.2.2.3 Plant Growth and Development. | 97 |
| 6.2.2.4 Morphological and Physiological Plant Responses. .. | 97 |
| 6.3 Experiment 2. | 102 |
| 6.3.1 Materials and Treatments. | 102 |
| 6.3.2 Results and Discussion. | 102 |
| 6.3.2.1 Water Consumption. | 102 |
| 6.3.2.2 Plant Growth and Development. | 104 |
| 6.3.2.3 Morphological and Physiological Plant Responses. .. | 104 |
| 6.4 Experiment 3. | 108 |
| 6.4.1 Materials and Treatments. | 108 |
| 6.4.2 Results and Discussion. | 108 |
| 6.4.2.1 Soil Water Potential. | 108 |
| 6.4.2.2 Water Consumptions. | 108 |
| 6.4.2.3 Plant Growth and Development. | 113 |
| 6.4.2.4 Morphological and Physiological Plant Responses. .. | 117 |
| 6.5 Conclusions. | 120 |
| CHAPTER 7 EFFECTS OF AERATION AND NON-AERATION OF THE RHIZOSPHERE ON CITRUS SEEDLINGS. | 121 |
| 7.1 Introduction. | 121 |
| 7.1.1 General. | 121 |
| 7.1.2 Difficulties with Soil Experiments. | 121 |
| 7.1.3 Motivation for Water Culture Experiments. | 122 |
| 7.2 Materials and Treatments. | 122 |
| 7.3 Results and Discussion. | 123 |
| 7.3.1 Plant Growth and Development. | 123 |
| 7.3.1.1 Plant Height. | 123 |
| 7.3.1.2 Number of Leaves. | 123 |
| 7.3.2 Morphological and Physiological Plant Responses. | 127 |
| 7.3.3 Sensitivity of Seedlings to Non-aeration. | 130 |
| CHAPTER 8 EFFECTS OF pH AND NON-AERATION OF THE RHIZOSPHERE ON CITRUS SEEDLINGS. | 132 |
| 8.1 Introduction. | 132 |
| 8.2 Materials and Treatments. | 132 |
| 8.3 Results and Discussion. | 133 |
| 8.3.1 Plant Growth and Development. | 133 |

| | |
|--|-----|
| 8.3.2 Morphological and Physiological Plant Responses. | 133 |
| CHAPTER 9 EFFECTS OF AERATION AND NON-AERATION ON NUTRIENT STATUS OF TROYER CITRANGE SEEDLINGS. | 143 |
| 9.1 Introduction. | 143 |
| 9.2 Materials and Treatments. | 143 |
| 9.3 Results and Discussion. | 143 |
| 9.3.1 Plant Growth and Development. | 143 |
| 9.3.2 Morphological and Physiological Plant Responses. | 145 |
| 9.3.3 Nutrient Status of Leaves. | 147 |
| CHAPTER 10 PRELIMINARY FIELD STUDIES INTO THE EFFECTS OF SOIL WATER CONTENT AND SOIL BULK DENSITY ON THE LEAF WATER POTENTIAL OF CITRUS AND INTO PRACTICAL IRRIGATION SCHEDULING. | 150 |
| 10.1 Introduction. | 150 |
| 10.2 Field study on the Effects of Soil Physical Properties and Water content. | 151 |
| 10.2.1 Materials and Method. | 151 |
| 10.2.2 Results and Discussion. | 152 |
| 10.2.2.1 Soil Water Content. | 152 |
| 10.2.2.2 Soil Water Potential. | 152 |
| 10.2.2.3 Leaf Water Potential. | 152 |
| 10.3 Practical Irrigation Scheduling Evaluation. | 156 |
| 10.3.1 General. | 156 |
| 10.3.2 Field Data. | 159 |
| 10.3.3 Opportunities. | 163 |
| 10.3.4 Problems and Threats. | 163 |
| 10.4 Conclusions. | 164 |
| CHAPTER 11 CONCLUSIONS AND RECOMMENDATIONS. | 165 |
| 11.1 Conclusions. | 165 |
| 11.2 Recommendations. | 167 |
| LITERATURE CITED. | 170 |
| APPENDIX. | 178 |
