

## TABLE OF CONTENTS

- I. EXECUTIVE SUMMARY
- II. GROUND WATER EXPLORATION, USE AND CONSERVATION
- III. PRIMARY HEALTH CARE THROUGH IMPROVED WATER SUPPLY, SANITATION AND COMMUNITY EDUCATION
- IV. SPRINGS AND SPRING PROTECTION
- V. SMALL SCALE DESALINATION
- VI. PUMPS AND PUMPING SYSTEMS

WATER RESEARCH COMMISSION

A GUIDE TO:

GROUNDWATER EXPLORATION, USE  
AND CONSERVATION

prepared by:

Division of Water, Environment and Forestry  
Technology, CSIR

## TABLE OF CONTENTS

1.	INTRODUCTION.....	1
2.	BASIC PRINCIPLES.....	1
2.1	THE ORIGIN OF GROUNDWATER.....	1
2.2	GROUNDWATER MOVEMENT AND WATER BALANCE.....	4
2.3	GEOLOGICAL CONTROL.....	4
2.4	GROUNDWATER QUALITY.....	5
3.	EXPLOITATION OF GROUNDWATER THROUGH WELLS AND BOREHOLES.....	7
3.1	SITING OF BOREHOLES AND WELLS.....	7
3.2	DRILLING AND EXCAVATION METHODS.....	10
3.3	DRILLING CONTRACTS.....	12
3.4	BOREHOLE LOGGING.....	13
3.5	BOREHOLE/ WELL DEVELOPMENT.....	13
3.6	WELL TESTING (TEST PUMPING).....	14
3.7	PUMP SELECTION.....	14
4.	USE AND CONSERVATION OF GROUND WATER.....	15
4.1	BOREHOLE OR WELL MONITORING.....	15
4.2	BOREHOLE OF WELL MAINTENANCE.....	15
4.3	MANAGEMENT OF GROUNDWATER RESOURCES AND ASSETS.....	16
5.	REFERENCES.....	16
