

TABLE OF CONTENTS

PREFACE: Background to the <i>Wet-Management Series</i>	3
Summary of <i>WET-EcoServices</i>	10
Acknowledgements, Citation, Feedback	11
1 AN OVERVIEW OF <i>WET-ECOSERVICES</i> AND ITS DEVELOPMENT	13
1 .1 Background	13
1 .2 Purposes and scope of <i>WET-EcoServices</i>	13
1 .3 Who are the anticipated users of <i>WET-EcoServices</i> ?	15
2 OVERALL STRUCTURE OF THE WETLAND SYSTEM	16
3 THE ASSESSMENT PROCEDURE	19
3.1 Steps to follow in applying the procedure.....	19
3.2 Define your objectives and the scope of your assessment.....	19
3.3 The desktop description.....	20
3.4 Determining the number of wetlands to assess and the level of assessment.....	21
3.5 Level 1 assessment.....	22
3.6 Rationale for assigning of hydrological benefits to hydro-geomorphic types.....	23
3.7 Level 2 assessment.....	26
3.7.1 The procedure used for scoring wetland characteristics.....	26
3.7.2 Presenting and interpreting the scores.....	30
3.8 Assessing threats and future opportunities, and translating the results into practical actions.....	32
4 THE CHECKSHEETS FOR A LEVEL 2 ASSESSMENT	34
4.1 Flood attenuation.....	34
4.2 Streamflow regulation.....	39
4.3 Sediment trapping.....	43
4.4 Phosphate removal.....	44
4.5 Nitrate removal.....	47
4.6 Toxicant removal.....	49
4.7 Erosion control (in the HGM unit).....	50
4.8 Carbon storage.....	52
4.9 Maintenance of biodiversity.....	54
4.10 Provision of water supply for direct human use.....	61
4.11 Provision of harvestable natural resources.....	63
4.12 Provision of cultivated foods.....	65
4.13 Cultural significance.....	67
4.14 Tourism, recreation and scenic value.....	68
4.15 Education and research.....	71
4.16 Identifying threats and future opportunities.....	73
5 REFERENCES	74
6 GLOSSARY	77
Appendix 1: <i>WET-EcoServices</i> datasheets (<i>in the form of a CD appended to back cover</i>)	
Appendix 2: Erosion hazards of soil forms common to wetlands.....	80
