

# Table of Contents

Executive Summary	i
Table of Contents	xii
List of Appendices	xv
List of Figures	xvi
List of Tables	xviii
Abbreviations	xix
Acknowledgements	xx
<b>1. Introduction</b>	1-1
1.1 Study aims	1-2
1.2 Study methodology	1-5
1.3 Selected settlements	1-5
1.4 Study limitations	1-6
1.5 Report structure	1-6
<b>2. Literature Review</b>	2-1
2.1 Greywater management: SA policy and legislation	2-1
2.2 A darker shade of grey: quality	2-2
2.3 Generating greywater: quantity	2-4
2.4 Greywater: a health and environmental issue	2-6
2.5 Sustainable greywater management: lessons learnt	2-7
2.6 Improving governance	2-10
2.7 Participation in greywater management: social challenges	2-12
2.8 Participatory action research	2-13
2.8.1 The ADMP framework	2-13
2.8.1.1 Participatory Action Research (PAR)	2-13
2.8.1.2 Decision Support System (DSS)	2-14
2.8.1.3 Dialectic decision-making process	2-14
2.8.1.4 Operational phases of ADMP	2-14
2.9 Relevance of literature review to this study	2-15
<b>3. Research methods</b>	3-1
3.1 Introduction	3-1
3.2 Adapting the ADMP to the study	3-1
3.2.1 The need for adaptation	3-1
3.2.2 The operational phases	3-2
3.2.2.1 Phase 1: Identification and assessment	3-2
3.2.2.2 Phase 2: Reflection and establishing of shared goals	3-2
3.2.2.3 Phase 3: Action	3-3
3.2.2.4 Phase 4: Adaptive learning	3-3
3.2.3 ADMP and the original study objectives	3-3
3.2.3.1 Phase 1: Identification and assessment	3-3
3.2.3.2 Phase 2: Reflection and establishing of shared goals	3-4
3.2.3.3 Phase 3: Action	3-4
3.2.3.4 Phase4: Adaptive learning	3-4
3.3 Surveys in Hangberg	3-5
3.4 Ethnographic observations in the Drakenstein settlements	3-5
3.5 Summary	3-7
<b>4. Study settlement description</b>	4-1
4.1 Introduction	4-1
4.2 Settlement selection	4-1

4.2.1 Settlement selection criteria	4-1
4.2.2 Settlements considered	4-2
4.3 Overview of the selected sites	4-3
4.3.1 Langrug, Franschhoek	4-3
4.3.2 Waterworks, Grabouw	4-4
4.3.3 Hangberg, Hout Bay	4-5
4.3.4 Paarl settlements, Drakenstein Municipality	4-7
4.3.4.1 Oliver Tambo	4-9
4.3.4.2 Drommedaris	4-9
4.3.4.3 Fairyland	4-9
4.3.4.4 Simondium	4-9
4.4 Summary	4-9
<b>5. Greywater management</b>	5-1
5.1 Introduction	5-1
5.2 Low-cost greywater management options	5-1
5.2.1 Crate and trench soakaway	5-2
5.2.2 Drum filter	5-3
5.3 Langrug, Franschhoek	5-4
5.3.1 Service levels in Langrug	5-4
5.3.2 Water quality measurements	5-5
5.3.3 Greywater management interventions	5-8
5.3.4 Evaluation of the interventions	5-12
5.4 Waterworks, Grabouw	5-12
5.4.1 Service levels in Waterworks	5-12
5.4.2 Environmental concerns	5-13
5.4.3 Greywater management interventions	5-16
5.5 Hangberg, Hout Bay	5-18
5.5.1 Service levels in Hangberg	5-18
5.5.2 Quality of the surface water drainage in Hangberg	5-19
5.5.3 Greywater management in Hangberg	5-19
5.6 Paarl informal settlements	5-22
5.6.1 Services provided by Drakenstein Municipality	5-22
5.6.2 The four sampled settlements	5-23
5.6.2.1 Oliver Tambo	5-23
5.6.2.2 Drommedaris	5-26
5.6.2.3 Fairyland	5-27
5.6.2.4 Simondium	5-30
5.7 Summary of conditions in case study areas	5-32
<b>6. Discussion</b>	6-1
6.1 Introduction	6-1
6.2 Conditions in the settlements	6-1
6.3 Improving governance	6-6
6.3.1 An overview of circumstances and conditions	6-7
6.3.2 Assessment of initiatives	6-11
6.4 Achievement of the original study objectives	6-12
6.5 Summary	6-14
<b>7. Conclusions</b>	7-1
<b>8. Guidance for greywater management</b>	8-1
<b>9. Recommendations for further study</b>	9-1
