Executive Summary.....	i
Acknowledgements.....	v
Table of Contents.....	vii
List of Figures	ix
List of Tables	x
Abbreviations and Acronyms	xi
Glossary.....	xii
1 What is Greywater?	1
2 Why Use Greywater for Irrigation?	2
3 Concerns about the Use of Greywater for Irrigation	3
3.1 Human Health Considerations	3
3.2 Plant Growth and Yield	3
3.3 Ability of Soil to Support Plant Growth	3
4 Purpose of the Guidance Report	5
4.1 Intended Users of the Guidance Report	5
4.2 Focus of the Guidance Report	5
4.3 Major Sources Used	5
5 Legislative Context of Greywater Use for Irrigation	7
6 Special Considerations for Informal Settlements	9
7 Guidance for Greywater Use in Small-Scale Irrigation in South Africa	11
7.1 Guide to Managing Risk and Uncertainty	11
7.1.1 Category 1: No greywater analysis (Figure 7.2)	13
7.1.2 Category 2: Minimum greywater analysis (Figure 7.3)	16
7.1.3 Category 3: Full greywater analysis (Figure 7.4)	20
7.2 Greywater Quality: Guide to Greywater Constituents	23
7.2.1 Rationale underlying choice of constituents	23
7.2.2 Greywater constituents and greywater quality guidance ranges	23
7.2.3 Number of samples	26
7.3 Greywater Quality: Guide to Mitigation of Greywater Quality	26
7.3.1 Integrated mitigation practices	26
7.3.2 Greywater treatment systems	29
7.4 Greywater Quantity: Guide to Irrigation Volumes	33
7.4.1 Estimating plant water use	34
7.4.2 Quick look-up tables of estimated water use per climatic region by season	34
7.4.3 Other factors to consider when plants are irrigated with greywater.....	38
7.4.4 Worked example of calculation of quantity of water to be applied.....	40
8 Summary of Guidance for Sustainable Use of Greywater in Small-Scale Agriculture and Gardens in South Africa	42
9 References	43
Appendices.....	46
