

TABLE OF CONTENTS

Executive summary	I
Acknowledgements	IV
Table of contents	V
List of figures	VII
List of abbreviations	IX
1. INTRODUCTION	1
1.1. Background	1
1.1.1. Environmental, Social and Economic Implications of ARD	2
1.1.2. Acid Rock Drainage Prevention.....	3
1.2. Problem Statement	4
1.3. Scope and Overview	4
2. OVERVIEW OF TYPICAL ARD GENERATING MINERAL WASTES IN SOUTH AFRICA	6
2.1. Classification of ARD-Generating Mine Wastes	6
2.2. Origins and sources of ARD-Generating Mineral Wastes: A General Overview	6
2.2.1. Metal Bearing Sulphide Ores.....	9
2.2.2. Extraction and Processing of Metal-Bearing Sulphide Ores	9
2.2.3. Coal Ores and Processing	11
2.3. The Department of Sulphur during Extraction of Sulphidic Metal-Bearing Ores and Coals	12
2.4. Origins, Sources and ARD-Generating Characteristics of Sulphidic Wastes in South Africa.....	12
3. UNIT OPERATIONS FOR SULPHIDE REMOVAL THROUGH SEPARATION OR REACTION ..	16
3.1. Introduction	16
3.2. Review of Unit Operations for Physical Separation of Sulphide Containing Materials	16
3.3. Review of Unit Operations for Removal of Sulphide Containing Materials by Reaction	18
4. WASTE ROCK CHARACTERISATION IN TERMS OF ARD POTENTIAL	19
4.1. Introduction	19
4.2. Sampling	19
4.3. Physical and Mineralogical Information	19
4.4. Static Tests	20
4.4.1. pH _{1:2} and EC _{1:2} Tests	20
4.4.2. Acid-Base Accounting (ABA)	20
4.4.3. Modified Acid-Base Accounting	21
4.4.4. Net Acid Generation (NAG) Test	21
4.5. Kinetic tests	23
4.5.1. Shake Flask Tests	25
4.5.2. Humidity Cell Tests	25
4.5.3. Leach Column Tests	25
4.5.4. Field Tests	25
4.5.5. Biological Shake Flask Tests.....	25
5. CASE STUDY 1: REMOVAL OF SULPHIDE FROM TAILINGS BY FLOTATION AND ITS SUBSEQUENT IMPACT ON ARD POTENTIAL	29
5.1. Introduction	29
5.2. Experimental Test Work	29
5.2.1. Ore Description	29
5.2.2. Flotation Tests	29
5.2.3. ARD Prediction Tests	29
5.3. Results and Discussion	30
5.3.1. Separation of Residual Sulphides by Flotation	30
5.3.2. Acid Rock Drainage Risk Assessment of the Tailing Fractions by Static Testing	32
5.3.3. Acid Rock Drainage Risk Assessment of the Tailing Fractions: Biokinetic Shake Flask Tests	33
5.4. Conclusion	34
6. CASE STUDY 2: REMOVAL OF SULPHIDE FROM WASTE ROCK AND TAILINGS BY ACCELERATED OXIDATION AND ITS SUBSEQUENT IMPACT ON ARD POTENTIAL	35
6.1. Project Approach	35
6.2. Experimental Materials and Methods	35
6.2.1. Column Reactors	35
6.2.2. Bacterial cultures	35
6.2.3. Ore Mineralogy	36
6.2.4. Analytical Procedures	36

6.3. Experimental Approach 1: Factors Influencing Leach Rate	37
6.3.1. Introduction	37
6.3.2. Operating conditions	37
6.3.3. Results	38
6.4. Experimental Approach 2: Loss of ARD generation potential with leach time	43
6.4.1. Introduction	43
6.4.2. Operating conditions	43
6.4.3. Results	43
6.5. Experimental Approach 3	46
6.6. Conclusions	47
7. CASE STUDY 3: PRELIMINARY STUDY OF THE REMOVAL OF SULPHIDE FROM COAL FINES AND TAILINGS BY FLOTATION TO MINIMISE SUBSEQUENT ARD IMPACT POTENTIAL	48
7.1. Introduction	48
7.1.1. Background and Motivation	48
7.1.2. Study Scope	49
7.2. Experimental	49
7.2.1. Sample Description	49
7.2.2. Flotation Test Work	49
7.2.3. Sample Characterisation	49
7.3. Results and Discussion	49
7.3.1. Flotation Test Work	49
7.3.2. Acid Rock Drainage Risk Potential Assessment	50
7.4. Conclusions and Recommendations	51
8. CONCLUSIONS	52
9. RECOMMENDATIONS	54
10. LIST OF REFERENCES	55
APPENDIX 1: GENERIC ORIGINS AND SOURCES OF SULPHIDIC MINERAL WASTES	60
A1.1. Modes of occurrence of elements within the earth's crust	60
A1.2. The affinity of elements for oxygen.....	60
A1.3. Stable temperature ranges of hydrothermal minerals as a function of melting and sublimation points	61
A1.4. Mineral associations of hydrothermal deposits	62
A1.5. Concentration methodologies and technologies as a function of solid-solid separation criteria	63
A1.6. Particle size range for various concentration methodologies and technologies	63
APPENDIX 2: ORIGINS AND SOURCES OF SULPHIDIC MINERAL.....	64
A2.1. Overview of South African Mineral Deposits (South African Council for Geoscience)	64
A2.2. Gold sub-sector	65
A2.2.1. Ore Processing and Waste Generation	66
A2.3. Coal Sub-sector	67
A2.3.1. Coal Processing	68
A2.3.2. Coal wastes	69
A2.4. Base Metals Sub-sector	70
A2.5. Platinum Group Metals Sub-sector	72
A2.6. Antimony Sub-sector	74
APPENDIX 3: DISSEMINATION OF RESEARCH TO DATE	75
