

# TABLE OF CONTENTS

EXECUTIVE SUMMARY	iii
LIST OF FIGURES AND TABLES	vii
LIST OF ABBREVIATIONS	x
ACKNOWLEDGEMENTS	xi
1. OBJECTIVES	1
1.1 Aims	1
1.2 Methodology	
2. BACKGROUND	2
3. LITERATURE REVIEW	4
3.1 Sulphur Cycle	4
3.2 Sulphide Consuming Processes	5
3.3 Chemistry of Sulphide Oxidation	8
3.4 Kinetics of Sulphide Oxidation	9
3.5 Thermodynamics of Sulphide Oxidation	10
3.6 Characteristics of Biologically Produced Sulphur	10
3.7 Treatment for Sulphidic Waste Streams	11
3.8 Biological Sulphide Oxidation Utilising Heterotrophic Sulphide Oxidising Bacteria	13
3.9 Interactions between Sulphide Oxidising Bacteria and Sulphate Reducing Bacteria	14
3.10 Sulphide Oxidation in Organic Rich Aqueous Environments	15
3.11 The Floating Sulphur Biofilm Reactor	16
4. THE TUBULAR FIXED FILM REACTOR	20
4.1 Introduction	20
4.2 Materials and Methods	20
4.2.1 Reactor Configuration	20
4.2.2 Reactor Operation	22
4.2.2.1 Reactor Start-Up	22
4.2.2.2 Biofilm Harvesting	22
4.2.2.3 Reactor start-up after biofilm removal	22
4.2.2.4 Particulate collection	22
4.2.3 Electron Microscopy	23
4.2.4 Analytical Methods	23
4.2.4.1 Sulphide	23
4.2.4.2 Sulphate	23
4.2.4.3 Sulphur	24
4.2.4.4 Redox	24
4.2.4.5 pH	24
4.2.4.6 Transmission Electron Microscopy	24
4.2.4.7 Scanning Electron Microscopy (SEM)	25
4.3 Results	25
4.3.1 Reactor Start-Up	25
4.3.2 Reactor Operation after Biofilm Harvesting	28
4.3.3 Particulate collection	31
4.3.4 Redox Changes during Purge Experiments	32
4.3.5 Microscopy	33
4.4 Discussion	36
4.4.1 Reactor Start-up	36
4.4.2 Reactor start-up after biofilm harvesting	38

4.4.3 Particulate Collection.	40
4.4.4 EM and Light Microscopy	40
4.5 Conclusions	40
5. SCALE-UP EVALUATION OF THE FIXED FILM BIOREACTOR SYSTEM	42
5.1 Operating System	42
5.2 Tubular Reactor	43
5.3 Harvesting	43
5.4 Results	44
5.4.1 Sulphur Harvesting	44
6. PATENT AND LITERATURE SEARCH	46
7. CONCLUSIONS AND RECOMMENDATIONS	52
8. REFERENCES	53
