CHAPTER 1. INTRODUCTION	1
1.1 The IWRM Mandate: Stakeholder-Centred Sustainability, Equity and Efficiency	1
1.2 Strategic Adaptive Management: A Framework for Achieving the IWRM Mandate	1
1.3 Action Research to Embed the Concept and Process of SAM as a Framework for IWRM	4
CHAPTER 2. BUILDING INSTITUTIONAL UNDERSTANDING OF, AND CAPACITY IN, STRATEGIC ADAPTIVE MANAGEMENT	5
2.1 Introducing the Concept and Process of SAM as a Framework for IWRM	5
2.2 ICMA Adaptive Planning for Management of the Inkomati Catchment	6
2.3 Outcomes of ICMA Adaptive Planning for Management of the Inkomati Catchment	7
2.3.1 Vision	7
2.3.2 Context for the management of the Inkomati catchment	7
2.3.3 Values/principles to guide operations and decision making	8
2.3.4 Vital attributes	9
2.3.5 Determinants of, and threats and constraints to, vital attributes	9
2.3.6 Management objectives	11
2.4 Translating High Level Objectives into Practical Actions	12
2.4.1 Project 1: Creating an adaptive information and decision network to ensure delivery of the Reserve to the Kruger National Park	13
2.4.1.1 Rationale and expected impact	13
2.4.1.2 Contribution to meeting objectives and maintain vital attributes	13
2.4.1.3 Implementation and available resources	14
2.4.2 Project 2: Developing a cooperative programme for municipal Waste Water Treatment Works compliance and enforcement	14
2.4.2.1 Rationale and expected impact	14
2.4.2.2 Contribution to meeting objectives and maintain vital attributes	15
2.4.2.3 Implementation and available resources	15

2.4.3 Project 3: Implementing an integrated river operations system for managing the Crocodile river	16
2.4.3.1 Rationale and expected impact	16
2.4.3.2 Contribution to meeting objectives and maintain vital attributes	16
2.4.3.3 Implementation and available resources	19
2.5 Conclusion	19
CHAPTER 3. ADAPTIVE PLANNING TO DEVELOP A STAKEHOLDER-CENTRED CATCHMENT MANAGEMENT STRATEGY	20
3.1 The CMS Development Process	20
3.1.1 Ensuring continuity in stakeholder participation	20
3.1.2 Stakeholder orientation workshop	20
3.1.3 Preparatory empowerment workshops	22
3.1.4 Visioning workshops	22
3.1.5 Facilitating the visioning workshops/APP	23
3.1.6 Integration workshop	27
3.2 Outcomes of Stakeholder Adaptive Planning for Management of the Inkomati Catchment	27
3.2.1 Vision	27
3.2.2 Values/principles to guide decision making	27
3.2.3 Vital attributes of the Inkomati catchment	27
3.2.3.1 Sabie-Sand sub-catchment specific vital attributes	28
3.2.3.2 Komati sub-catchment specific vital attributes	28
3.2.3.3 Crocodile sub-catchment specific vital attributes	28
3.2.4 Threats	28
3.2.5 Objectives	30
3.2.5.1 Co-operative governance	30
3.2.5.2 Sustainability	30
3.2.5.3 Funding	31
3.2.5.4 Information needs	31
3.3 Translating Stakeholder Objectives into a Catchment Management Strategy	31
3.4 Conclusion	32
