

Table of Contents

Acknowledgements.....	III
Executive Summary.....	IV
Table of Contents.....	XI
List of Figures.....	XIII
List of Tables.....	XVIII
List of Abbreviations.....	XIX
Chapter One: Introduction	1
1.1 Scope.....	1
1.2 Aims and Objectives	4
Chapter Two: Background and Literature Review.....	5
2.1 Introduction.....	5
2.1.1 The Effects of Roads on Streamflow.....	7
2.1.2 Overland Flow and Sediment Entrainment.....	7
2.1.3 Gullies and Slope Failures Caused by Roads.....	13
2.2 Road Linkage Redistribution.....	17
2.3 Subsurface and Near Surface Movement of Water.....	20
Chapter Three: Materials and Methods.....	24
3.1 Introduction.....	24
3.2 Site Description.....	25
3.3 Measurement of Surface Runoff and Sediment Fluxes.....	34
3.4 Collection of Sediment.....	42
3.5 Cross-Profile Sampling.....	42
3.6 Impact of Roads on Soil Water Movement Through the Hillslope.....	45
3.7 Movement of Water into Compartments.....	46
3.8 Soil Water Content.....	50
3.9 Rainfall.....	51
3.10 Infiltration.....	51
3.11 Penetrometer Soil Strength.....	52
Chapter Four: Measurement of Rainfall, Surface Runoff, Sediment Loss and Soil Water Movement.....	53
4.1 Rainfall.....	53
4.2 Penetrometer Soil Strength (PSS)	58
4.3 Soil Infiltration.....	59
4.4 Surface Runoff.....	60
4.5 Sediment Loss.....	69
4.6 Sediment Size.....	72
4.7 Microtopographical Changes in Road Surface.....	76
4.8 Hillslope Soil Water Content.....	77
4.9 Movement of Water into Compartments.....	81
Chapter Five: Numerical Modeling of Sediment Loss in Forest Compartments.....	86
5.1 Introduction.....	86

5.2 Models Used in Runoff and Sediment Loss Prediction.....	86
5.3 Modelling Specific Road Related Runoff and Sediment.....	88
5.4 Modelling Procedure.....	99
5.5 Results.....	104
5.6 Limitations.....	109
5.7 Conclusions.....	111

Chapter Six: Development of Indicators of Access Road Degradation.....

6.1 Introduction.....	113
6.2 Classifying Degradation on Unpaved Forestry Roads.....	115
6.3 Road Drainage.....	121
6.3.1 Cross-drainage.....	121
6.3.2 Drainage Along the Road.....	122
6.4 Topographic Character and Setting of the Road.....	122
6.5 Road Condition.....	123
6.5.1 The dry state.....	123
6.5.2 The wet state.....	123
6.6 Conclusion.....	126

Chapter Seven: Discussion and Conclusions.....

7.1 Introduction.....	127
7.2 Evidence From Literature.....	127
7.3 Findings from this study.....	128
7.3.1 Field Measurements.....	128
7.3.2 Modeling Framework.....	130
7.4 Recommendations for Further Research.....	131
7.4.1 Plot Design.....	132
7.4.2 Redirection of Road Runoff.....	133

Chapter Eight: References.....

Appendix 1.....	135
Appendix 2.....	146
Appendix 3.....	149
Appendix 4.....	151
