

## Table of Contents

Executive Summary .....	i
List of Figures .....	vii
List of Tables .....	xi
List of Appendices .....	xii
1 Introduction .....	1-1
1.1 Background .....	1-1
1.2 Research methodology .....	1-2
1.3 Research objectives .....	1-2
1.4 Layout of the Report .....	1-4
2 Literature review .....	2-1
2.1 Introduction .....	2-1
2.2 Calculation methods to evaluate the peak flow rate .....	2-1
2.3 Factors affecting run-off .....	2-4
2.4 Deterministic methods .....	2-12
2.5 Other studies conducted on some of the factors that influence run-off peaks from urban catchments .....	2-24
3 Field work conducted to review the change in peak discharge associated with the development in the urban catchments .....	3-1
3.1 Introduction .....	3-1
3.2 Details of Catchment 1: Willowspruit catchment – Tshwane .....	3-1
3.3 Details of Catchment 2: Robert’s Place – Tshwane (Erf 683 and 685, Equestria 137) .....	3-5
3.4 Available hydrological data .....	3-6
3.5 Flow gauging infrastructure .....	3-8
3.6 Rainfall gauging stations .....	3-19
3.7 Establishing of the rainfall intensities .....	3-22
3.8 Data analysis for Willowspruit (Catchment 1) .....	3-24
3.9 Modelling of discharge from Robert’s Place (Catchment 2) .....	3-28
4 Review of the Willowspruit catchment .....	4-1
4.1 General .....	4-1
4.2 Introduction .....	4-1
4.3 Volume of runoff .....	4-1
4.4 Volumetrically similar storm events .....	4-2
4.5 Overview of rainfall events .....	4-3
4.6 Storm events evaluated based on the daily rainfall and hourly intensity .....	4-11
4.7 Conclusion .....	4-18
5 Comparison of the measured and modelled catchment response to rainfall at Robert’s Place .....	5-1
5.1 Results and discussion of Zone A .....	5-1
5.2 Results and description of Zone B .....	5-6
5.3 Temporal storage structures .....	5-10
5.4 Conclusion .....	5-10
6 Assessment of the hydrological records to establish the influence of development on the runoff response from larger catchments .....	6-1
6.1 Rietvlei Dam Catchment (A2R004) .....	6-2
6.2 Daspoort catchment area (A2H007) .....	6-11
6.3 Hydrological review of similar hydrological years for the Kameeldrift catchment area (A2H028) .....	6-18
6.4 Conclusion .....	6-26
7 Conclusion .....	7-1
8 Recommendations .....	8-1
9 References .....	9-1
